

## Linx Red ink 1018

Linx Red ink 1018 has a strong red colour, which is suitable for use on a wide variety of materials, and provides good contrast with a range of colours. This ink is fast drying, and once dry it is water and alkali resistant.

Linx Red ink 1018 performs well in most straightforward applications, such as food and pharmaceuticals packaging, as it adheres to most materials and is resistant to many chemicals commonly encountered in production environments.

**Fast drying**

---

**Good contrast**

---

**Highly removal resistant**

## Product overview

---

### Linx Red ink 1018

Ink/solvent base	MEK
Colour system	Red dye
Drying time	0.5-2 seconds (non-porous materials)
Recommended solvent	Linx solvent 1505

## Quality assurance

---

- It is always recommended that only Linx continuous ink jet inks and solvents are used in Linx printers as substitutes can affect printer performance or cause printer failure
- Linx inks and solvents are formulated specifically for use in Linx printers to ensure performance and reliability
- They are manufactured to certified and verifiable ISO 9001 quality procedures
- Every bottle of ink and solvent is uniquely identified to ensure that it can be traced back through the manufacturing process and has a "use-by" date which guarantees performance throughout its shelf-life

## Linx printers

---

Linx Red ink 1018 is compatible with the current range of Linx printers fitted with Mk7 Midi, Midi *plus*, Ultima and Ultima *plus*, Mk5 Midi and Midi 70 µm, and Mk3b Macro and Micro printheads and is suitable for printing up to four lines of text.

Further information about the current range of Linx printers is available from the Linx sales office or at [www.linx.co.uk](http://www.linx.co.uk).

## Ink and solvent storage and use

---

Linx Red ink 1018 and 1505 solvent should be stored between +15°C and +25°C.

Linx Red ink 1018 can be used at normal printer operating temperatures i.e. between +5°C and +45°C.

Shelf-life of Linx Red ink 1018 is at least 12 months from the date of despatch from Linx.

## Ink handling guidelines

---

Linx takes great care to ensure that none of their CIJ inks and solvents are classified as 'Toxic', 'Harmful', or 'Toxic to the Environment'.

Linx Red ink 1018 is however labelled as 'Highly Flammable' and 'Irritant'. The normal safety precautions for these classifications should always be taken.

For further details please see the Material Safety Data Sheet.

## Ordering options for Linx inks and solvents

---

There are three alternative options to suit different customer usage patterns:

- Standard 5 litre packs (10 x 0.5 litre bottles of either ink or solvent). For customers requiring at least 5 litres of ink per year
- Easypacks (10 x 0.5 litre bottles of ink packed in five inner boxes each containing two bottles). For customers who buy centrally for onward distribution to a number of different manufacturing locations
- Combipacks (4 x 0.5 litre bottles of ink and 6 x 0.5 litre bottles of matching solvent). For customers requiring less than 5 litres of ink per year
